WEATHER OF CONCERN

Weather of Concern

- The National Weather Service is predicting three high pressure systems to move over the North State creating hot temperatures and elevated fire risk over much of the area
- The National Weather Service has issued an Air Quality Alert for the San Joaquin Valley. A stagnant, hot air mass and smoke from area wildfires is creating unhealthy air quality throughout much of Central California.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

A closed low pressure area will remain off the California coast through Wednesday while high pressure sits over the Great Basin. Moist unstable subtropical air will continue to stream into Northern California from the south with this pattern. Isolated showers and thunderstorms are possible at the southern end of the region into the afternoon, followed by a better chance of showers and thunderstorms over a larger portion of the region through the overnight hours. Early on, only light amounts of rainfall can be expected and dry strikes and new ignitions are possible. As the shower and thunderstorm activity increases late today more rainfall will be produced, but current fuels conditions will still mean that new ignitions are possible. The pattern of scattered to numerous showers and wet thunderstorms will continue Wednesday across the north and east.

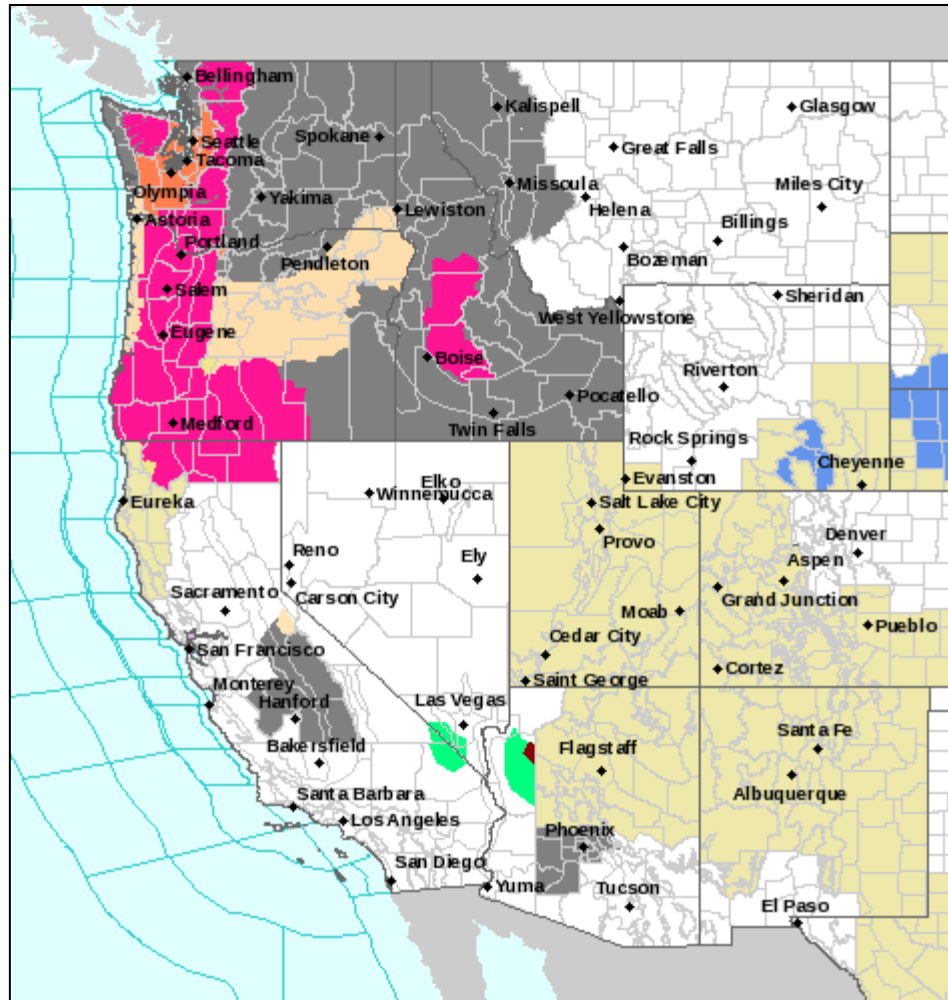

Scattered showers and thunderstorms Thursday and Friday will produce enough rainfall to no longer be considered a high risk situation. Nocturnal thunderstorms are possible each night this week. By Wednesday temperatures will be near normal and humidity will have climbed significantly in most areas. Southeast-Southwest winds will gust to 20-25 mph in open areas today and to 25-30 mph in many areas Wednesday through Friday. At this point the weekend looks dry and a bit warmer, but more thunderstorms are possible early next week.

SOUTHERN CALIFORNIA

Humid conditions will be found over many areas of Southern California below 3,000 feet for the next several days due to lingering low level moisture from Lidia. But the established cooling trend will continue today as temperatures return to within a few degrees of normal. Afternoon temperatures are expected to range from the 70s at the coast to the upper 80s to lower 90s in the valleys to 108 in the low desert today and Wednesday. Scattered afternoon wet thunderstorms will develop along the Sierras north of Kern County eastward into Mono County and the Inyo National Forest. Wednesday and Thursday, low level flow will turn a bit more southerly which may import some monsoonal moisture into Southern California, and as a result, isolated wet thunderstorms will be possible on the San Bernardino and Cleveland National Forest. Further north, look for decreasing thunderstorm activity through the week as a trough approaches from the west. Only a handful of storms are expected in the Sierras by Wednesday and Thursday. However, over Southern California, storms will become more numerous over the weekend, especially in the desert areas. Temperatures will climb a bit later this week with widespread 90s returning to the valleys, but a return of the extreme heat of last week is not expected through the period. Winds will remain light, except during the passage of thunderstorms.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2017-LAW-38608, 09/05/17, 0800 hours:** International Emergency Rescue Coordination Center (IERCC) advised of an InReach activation in Tehama County. Per the IERCC, the registered owner, a 72 year old male, is hiking and has injured his knee. The Cal OES Law Enforcement Duty Officer (LDO) notified the Tehama County Sheriff. **Mission Ongoing.**

Closed Cal OES Law Missions

- **2017-LAW-38538, 09/03/17, 1358 hours,** The IERCC advised of a SPOT device activation in Tulare County near Jennie Lake. LDO notified the Tulare County Sheriff's Office (TCSO). Per IERCC, the registered owner is hiking with his pregnant wife and two friends. **UPDATE: 09/03/17, 1900 hours,** Per TCSO, they received a 9-1-1 call from the same location as the SPOT Device SOS, near Jennie Lake in Tulare County. Per the 9-1-1 caller, a male and his children had been hit by lightning. TCSO and CHP extricated the victims and they were transported to Fresno Regional Hospital. TCSO determined the SOS activation and the 9-1-1 call were the same incident. There were no more activations from the SPOT device. LDO notified IERCC. **Mission Closed.**
- **2017-LAW-38542, 09/03/17, 1412 hours,** The IERCC advised of an InReach SOS activation in San Bernardino County on Mt. Baldy. The registered owner reported he had lost the trail he was hiking on and while attempting to find it he began sliding down the mountain. LDO called San Bernardino County Sheriff's Department (SBSD) who had Search and Rescue (SAR) personnel in the area on Mt. Baldy training. **UPDATE: 09/03/17, 1540 hours,** SBSBD reported the hiker had been hoisted out by their helicopter. The hiker suffered minor injuries. **Mission Closed.**
- **2017-LAW-38588, 09/04/17, 1604 hours,** The Air Force Rescue Coordination Center (AFRCC) advised of Personal Locator Beacon (PLB) activation in Sequoia Kings National Park (SKNP). Apparently the register owner was suffering from a medical condition while on her hike. **UPDATE: 09/04/17, 1800 hours,** per SKNP and AFRCC, the hiker deactivated her PLB. SKNP attempted to hike in and check on her anyway, however she was no longer at the original location and her PLB had been silenced. **Mission Closed.**
